**SUPPLEMENTARY INFORMATION:**

CEQ previously published this proposed information collection in the Federal Register on March 16, 2022, and allowed 60 days for public comment. 87 FR 14842. CEQ did not receive any public comments. CEQ notes that the total burden hours have changed since the 60-day notice due to a clerical error. The purpose of this notice is to allow an additional 30 days for public comment.

Pursuant to the Paperwork Reduction Act, 44 U.S.C. 3506(c)(2)(A), CEQ is soliciting comments and information to enable it to: (1) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of CEQ, including whether the information will have practical utility; (2) evaluate the accuracy of CEQ’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

*Abstract:* The information collection activity provides a means to garner qualitative stakeholder feedback in an efficient, timely manner. CEQ envisions using surveys and focus groups to enhance customer service, improve product development, target messaging, ensure quality control, engage with stakeholders, and spur innovation.

Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically representative results, but rather to provide insight about the challenges that subsets of stakeholders face. This feedback will provide insights into stakeholder perceptions, experiences and expectations, provide an understanding of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between CEQ and its stakeholders. It also will allow feedback to contribute directly to the improvement of program management and services. The solicitation of feedback will target areas such as timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. CEQ will assess responses to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from stakeholders on CEQ's services will be unavailable.

CEQ will only submit a collection for approval by OMB under this generic clearance if the collections are voluntary; the collections are low burden for respondents and are low- or no-cost for both the respondents and the Federal Government; the collections are noncontroversial and do not raise issues of concern to other Federal agencies; the collections are targeted to the solicitation of opinions from respondents who have experience with a program or may have experience with a program in the near future; personally identifiable information is collected only to the extent necessary and is not retained; information gathered will be used only internally for general service improvement and program management purposes; information gathered will not be used for the purpose of substantially informing influential policy decisions; and information gathered will yield qualitative information.
